

IC Card Water Vending Machine

Introduction

IC card water vending machine or water vending machine with IC card reader covers an area of only one square meter. It is extensively used in community, convenience store, market, unit, school and other places. Now many water vending equipment have been developed from coin-type to IC card type automatic water vending machine. It is equipped with IC card reader so that customers can buy purified water by IC card. The water vending machine with IC card reader mainly consists of RO membrane, filter, powder coated steel cabinet, coin acceptor, bill validator and system board. Adopting filtration and advanced RO purification technology, this water vending equipment can supply pure water in accordance with Chinese national standards.

Features

1. Made from stainless steel and powder-coated steel, the water vending machine with IC card reader is extremely reliable and easy to service and maintain.
2. With pre-treatment sand and carbon filters, this water vending machinery realizes strong pretreatment and reversed flushing to reduce using cost.
3. Equipped with digital water vend counter, the water vending equipment can record vending situation.
4. The water vending machine with IC card reader uses 24-hour uninterrupted UV sterilization that guarantees water quality.
5. Water production capacity is from 400 GPD (1500 L per day) to 3000 GPD (11350 L per day). The water sales capacity can be flexibly adjusted according to customers' needs.
6. Pukui can provide customized water vending equipment to satisfy different customers' needs.

Operation and Maintenance Attentions

1. We need to know the source water quality and choose a water vending machine with IC card reader that possesses proper water production capacity.
2. Pukui provides one year warranty for the broken parts and offers excellent after-sale service.

Packaging and Transportation

We package this IC card water vending equipment in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.
