

Integrative Water Filling Machine

Description

Integrative water filling machine is a kind of automatic water bottling equipment that can complete washing, filling and sealing in the same machine. It enjoys the advantages of occupying small space, compact structure and high degrees of automation. As an integrative model, it is controlled by microcomputer and easy and reliable to operate. Pukui is a professional manufacturer and supplier of integrative water filling machines in China. In addition to this integrative water bottling equipment, we also offer water vending machine, ice vending machine and mini vending machine. Our products are exported to USA, Canada, England, Australia, India, Russia, Mexico, South Africa, Hong Kong and Taiwan. They are highly recognized by customers.

Competitive Advantages

1. Luxurious stainless steel and closed structure makes our integrative water filling machines easy to install and maintain.
2. The integrative water bottling equipment can automatically wash bottle with high concentration ozone water. The whole filling process is automatic, healthy and convenient.
3. Pukui water filling machinery is typically used for 5 gallon water bottles.
4. Our integrative water filling machines use 24 hours uninterrupted UV disinfection to guarantee water quality.
5. This water bottling equipment adopts advanced PLC control technology. The key electrical components are from famous company such as Mitsubishi, France Schneider, OMRON, etc.

Operation and Maintenance Attentions

1. We need to know the source water quality and choose proper integrative water filling machines with certain water production capacity.
2. Our company provides one year warranty for the broken parts of water bottling equipment. Customers can contact us via email or telephone for after sale service.

Packaging and Transportation

We package integrative water filling machines in carton for ordinary order. For bulk order, we use polywood cases for sea or air transportation.

Specifications

Item	Specification
Dimension	1950 mm × 1014 mm × 1690 mm (W × D × H)
Material	stainless steel material

Jiangmen Pukui Intelligent Machine Co., Ltd

Address: Lubian Industrial Zone, Chaolian Town, Pengjiang District, Jiangmen City, Guangdong Province, China

Tel: +86-750-3727343

Mobile: +86-13750376668

Fax: +86-750-3723532

Sales Manager: Mr. John Chen

Water Production Capacity	1300 GPD (4920 L per day) to 3000 GPD (11350 L per day).
Main Parts	RO membrane, filter, stainless steel cabinet, system board, IC card payment system

Technical Parameters of Integrative Water Filling Machine

Sub-Model	FP-01-1300	FP-01-1900	FP-01-2500	FP-01-3000
Production per Hour	200 L	300 L	400 L	472 L
Power Input	1.8 KW	2.53 KW	2.93 KW	3.63 KW
Current Input	8.2 A	11.5 A	13.3 A	16.5 A
Size of Filling Bottle	5-gal	5-gal	5-gal	5-gal
Filling Flow Rate	30 bottles/h (5gallon bottle)		30 bottles/h (5gallon bottle)	
Water Tank Capacity	220 L	220 L	220 L	220 L
Ozone Productivity	13 g/h	13 g/h	13 g/h	13 g/h
Air Pressure	0.6-0.7 MPa	0.6-0.7 MPa	0.6-0.7 MPa	0.6-0.7 MPa
